

Brief portfolio Marie BARBATI

Production of an individual portfolio to present students work during the *Online Formapro* formation.

This portfolio must contain at least:

- technical skills of the student
- formation student
- personal student's information (like first-name, last-name and age)
- Your projects approached by project sheet with an illustration of the project (for example, a screenshot, project title, month and the year of realization, a three lines description
- graphic work gallery
- contact formulary

The project will be an one page in html5, css3, and js with five section: the welcoming section, skill section, portfolio and contact form.

It will be an horizontal web page, and scroll will allow to slide from left to right side on the page.

Welcome to my portfolio :)

About me:
hiii ! My name is Marie Barbat, and I'm a web designer !
I'm born in 1993.

SKILLS

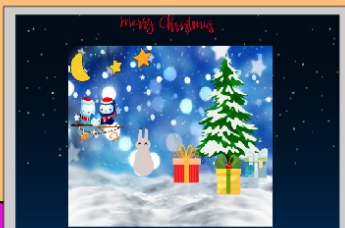

I work with HTML5, CSS3, JavaScript, PHP, MySQL,
framework like jQuery, JSON ...

and framework like Bootstrap, Materialize. I also
work with CMS like Wordpress, theme integration.

I master graphics software like Photoshop and
Illustrator.

I made SVG animation, and I touched music software
like Cubase, MuseScore, Audacity.
